

Effects on the Commercial and Restaurant and Café sectors during the Covid-19 period of confinement

barcelona.cat/comerc

Ajuntament de
Barcelona

The following measures have been taken during this exceptional situation to prevent the spread of Covid-19 and control the rate of infection:

Closure of shops with exceptions

Shops must be closed, with some exceptions.

The shops that may remain open are:

- Markets, supermarkets, self-services, food shops, baker's, butcher's, fishmonger's, fruit and vegetable shops, and beverage shops

Under no circumstances may food or drink be consumed in these establishments

- Household goods shops, dry cleaner's and laundrettes. Regarding hairdresser's, hairdressing may only be carried out professionally at clients' homes
- Chemist's, optician's, orthopaedics shops and medical establishments
- Kiosks, stationer's and tobacconist's
- Petrol stations and electric vehicle charging points
- Technological and telecommunications equipment sales points
- Pet food sales points
- Online, telephone and postal commerce
- Commercial centres, shopping arcades and large retail outlets will remain closed except where they are exclusively dedicated to food, cleaning or hygiene.

The following measures have been taken during this exceptional situation to prevent the spread of Covid-19 and control the rate of infection:

Effects on the hotel, restaurant and café sector

The activities of restaurants, cafés and hotels are restricted under the following measures:

Restaurants, cafés, food-tasting establishments, bars and other catering establishments are prohibited from opening.

These establishments may offer a home-delivery service.

Consumption on the premises is not permitted under any circumstances

The following measures have been taken during this exceptional situation to prevent the spread of Covid-19 and control the rate of infection:

Preventive measures for consumers

- Take the following preventive measures into account when going to shops:
- Only go when it is strictly necessary.
- Stay in the shop for as short a time as possible. Avoid crowds.
- Keep at a safe distance of 1.5 m or 2 m from other people
- Avoid touching products in shops with your hands.

Under no circumstances may products be consumed in these establishments
