

Let's make Barcelona worth living in

Dear neighbour,

We all love Barcelona and want a clean and well-kept city. A city to enjoy. We are aware that one of our residents' main concerns is cleaning, as well as for the City Council: it is the contract where we allocate more money, almost 10% of the annual municipal budget.

We have worked on a new cleaning and waste collection contract, which, from March, will involve more staff and new electric vehicles that will reduce emissions and noise, among other improvements.

With the new contract we adapt to each neighbourhood's needs every moment and improve the channels through which residents can report incidents. Because only with everyone's involvement and co-responsibility can we take care of our city.

We take care of Barcelona. A city that takes pride in its inhabitants and enchants everyone who visits it. We will all have a cleaner and more sustainable city. A Barcelona to live in.

Cordially,

Ada Colau Ballano
The Mayor of Barcelona

Commercial waste collection

Commercial waste represents more than 25% of the waste generated in Barcelona

At la Barceloneta we improve the public space and intensify waste collection service

Containers

Small shops and establishments that generate a small waste amount

Waste separation is important
Half of the waste generated is organic

Door to door

Shops and establishments in commercial areas or those that generate a large amount of waste

We facilitate waste storage and disposal
We are improving the classified collection rate

We renewed the 381 containers in the neighbourhood and grouped them to facilitate recycling.

Emissions and noise are reduced with a 100% electric fleet.

Our cleaning service includes water for the whole neighbourhood.

We reduce environmental impact using groundwater.

We will expand and intensify cleaning of green areas.
